Report of Superintendent Lewis, of the Board of Charities.

A Plan to Prevent the Association Women Who Are Old in Crime Suggested-"An Intermediate Prison, With an Intermediate Sentence.'

Senator H. D. Money, of Mississippi, recently wrote to the District Commis relative to the general subject of the imprisonment of boys with men of confirmed riminal habits. Senator Money, stated that he had no bill to offer in Congress but would introduce such a measure, and seek to have it passed, if the Commission ers would have one prepared.

The letter was referred to the Superintendent of Charities for the District, who this morning reported a bill to the Commissioners which he thinks a legal solution of the problem as presented in Wash-

In his letter transmitting the bill, Mr. Lewis says that Senator Money is correctly informed regarding the frequent imprisonment of boys under sixteen years of age in the District Jail and Workhouse. He further remarks that the subject has heretofore attracted a good deal of attention with a view to the development of some plan through which commitments of boys to these institutions could be prevented.

Mr. Lewis then refers to correspondence on the subject by the Intendant of the Washington Asylum, by Judges Kimball and Orfeited collaterals, \$164; bequest of Cleland Lindsley, \$750; disburse-In his letter transmitting the bill, Mr.

Judge Scott says in the letter quoted by
Mr. Lewis that during the six years of his service in the Police Court he has observed many children brought in who in his judgment ought never to have been there, had less zeal and better judgment been shown by those making the arrests, or greater care in the preliminary examina-

Judge Kimball informed the Commis sioners that in his opinion the proper remedy was to enlarge both reform schools so that they can take all defendants who ought to be sent to them, and provide a separate place to confine minors committed to the workhouse in default of the payment of fines, and that in all cases where minors under sixteen years of age are within the provisions of the Board of Children's Guardians Act, information under this act be filed and tried as in other cases.

From the Superintendent's report it was learned that there were in April 1809, boys in the workhouse who had served no less than six terms in that institution, and that the cause of their frequent arrests was chiefly "crap shooting" and a general disorderly course of conduct due to lack of salutary home restraint.

disorderly course of conduct due to accord disorderly course of the subject, goes on to say that the difficulty appears to be not so much in the want of proper agencies for the dealing with these children, as in the conduct and useful member of the executive and law committees of this society from the time that he began the practice of his profession in this city:

CHARLESTON, S. C., May 8 .- More than \$100,000 has been subscribed here for a South Carolina Inter-State and West India Exposition, which will be held in Charleston in the fall of 1901.

Within the next few weeks subscriptle are expected to amount to at least \$150,000, and possibly more. A commission for a charter has been issued by the Secretary of State and books of subscription were opened yesterday. A bill has also been drafted for Congress asking for a Federal appropriation of \$250,000. The project is firmly assured and the actual work on the Exposition City will begin in a short time.

This exposition for Charleston will be the first to be held in the South since the Spanish war, and the idea here is to give spanish war, and the idea here is to give great prominence to exhibits from Porto Rico and Cuba. The wonderful develop-ment of the South, with something of the vast cotton mill industry, will be promi-nently displayed.
